

Joy Baluch AM Bridge Duplication Project

Extended Temporary Road Closure - Tassie Street

The Joy Baluch AM Bridge is an important link in the National Land Transport Network at Port Augusta, providing access across the Spencer Gulf for commuter, commercial and freight vehicles in the northern region of South Australia. It is also a key tourist connection to the Eyre Peninsula, northern South Australia and beyond.

The Joy Baluch AM Bridge Duplication Project is a joint initiative of the Australian and South Australian governments and is being delivered by the Port Wakefield to Port Augusta Project (PW2PA) Alliance.

As part of the project, and to enable the construction of two bridge piles close to the road, Tassie Street will be temporarily closed to traffic in the vicinity of the works (see map overleaf). Pedestrian access along Tassie Street will continue to be provided.

Timing

The temporary closure of Tassie Street is being extended until the end of July 2021, weather permitting, to enable the installation of bridge beams and reduce the number of future closures.

Unless otherwise advised, works will be generally undertaken as follows:

- Monday to Saturday, 7am to 7pm.
- Sunday, 9am to 5pm.

Activities

To safely undertake the works, the crane currently located on Tassie Street will be used to lift the bridge beams into place.

Some noise and vibration disturbance can be expected at times while these works are completed, however the works will be managed to minimise disruption to nearby businesses and residents as much as practically possible. Noise and vibration monitoring will be undertaken during these works.

What to expect

Signage will be in place to advise motorists of the temporary road closure and available detour route via Thompson Street, Flinders Terrace and Young Street.

Access to residential and business properties will be maintained at all times.

Pedestrian access along Tassie Street will be provided at all times, with traffic controllers onsite to assist when works are taking place.

Stay up-to-date with the project via the new SitePodium app. The app is available at no cost by downloading Site Podium from the [App Store](#) or [Google Play](#) to your smart phone or tablet.
